

Twister Materials Composition Sheet

Name for components	Category for Components	Specifications Description	Materials Composition	percentage by weight for Materials Composition
USB head	Metal components	Metal connector with customer's machine	Iron with Nickel plated	12.1%
Plastic casing (internal)	Plastic structure	To enclose the internal electric components	ABS	22.6%
Metal shell (external)	Stainless Steel + Sandblasting electrolysis	External shell that can rotate to release the USB connector	Stainless Steel	43.0%
MUDP	Electronic components	Integrated circuit chip	Electronic components	8.1%
Plastic braket	MUDP TW bracket	assemble the MUDP	ABS resin	11.6%
key ring	Metal components	To connect the customer's keys	stainless steel	2.7%
